# Abdulrahman Alnashri

AI Engineer at Zid · Riyadh, Saudi Arabia

Email · LinkedIn · GitHub · Portfolio

## PROFILE

AI Engineer building merchant products at Zid, with experience in generative AI, agent workflows, full-stack development, computer vision, and robotics. Creator of KawnGraph, a local context graph for coding agents. Technical supervisor of the YAMAMAH team, national WRO 2025 winner and World Finals bronze medalist.

## EXPERIENCE

**AI Engineer · Zid | July 2026–Present**

- Build AI products for merchants, including Content Agent and Banner Designer.
- Develop generative content workflows, conversational interfaces, and store integrations using React, TypeScript, Supabase, APIs, and OAuth 2.0.
- Content Agent supports content planning, scheduling, approval before publishing, and customer comment replies.

**AI Specialist · Zid | January–July 2026**

- Built embedded AI tools for copywriting, SEO, image enhancement, and theme content.
- Worked on store migration workflows from Salla and Shopify to Zid.

**Technical Supervisor · YAMAMAH | August–October 2025**

- Technically supervised Al-Ula Secondary School's rescue-drone team on computer vision, edge AI, and automation.
- The team won first place at WRO Saudi Arabia 2025 and bronze at the World Finals in Singapore.

**Public Relations & Communication · Drone Club | July–December 2024**

- Supported communications, presentations, robotics events, and practical workshops.

**Full Stack Robotics Engineering Intern · Smart Methods | June–August 2024**

- Trained across mechanical design, electronics, AI, ROS, and web development.
- Received the Best Engineer 2024 recognition.

## SELECTED PROJECTS

- **Content Agent & Banner Designer · Zid AI:** Merchant tools for social content, comment replies, and conversational banner design.
- **KawnGraph:** Local code/document context graph, focused context packs, read-only MCP, and local Studio. GitHub
- **SABAQ:** Proactive multi-agent customer-service prototype; team leader, third place at AgentX 2025.
- **V-TAC:** Football analytics and tactical AI assistant using AutoGluon, Streamlit, and Whisper. SCAI AI League finalist, 2025.
- **Hekaya:** Cultural heritage application using YOLOv8, Gemini, LangChain, and Streamlit.
- **Sanad:** YOLO-based aerial emergency-reporting prototype developed during Tuwaiq Academy's drone program.
- **Emotion Recognition:** University of Jeddah graduation project exploring visual and audio emotion models.

## EDUCATION

- **BSc in Artificial Intelligence**, University of Jeddah · GPA 4.26/5.0.
- **Data Science & AI Bootcamp**, Le Wagon × Saudi Digital Academy · 2025.
- **AI Program, Phases 1 & 2**, KAUST Academy · December 2024–January 2025. Phase 2: 40 hours, 5–9 January 2025.

## SELECTED CREDENTIALS

- NVIDIA-Certified Associate: Generative AI LLMs · July 2026–July 2028.
- MoEngage Growth Marketer Expert · August 2026.
- Professional Training Program in Large Language Models (NVIDIA), SDAIA Academy · May 2026.
- Claude 101, Claude Code 101, Introduction to Agent Skills, Introduction to Subagents · Anthropic, April 2026.
- MCIT Jr Data Scientist · INE, January 2025.

## MENTORING & WORKSHOPS

- **AgentX Eastern, 2026:** Two teams remotely in the first stage; more than six teams in person.
- **AgentX Qassim, 2026:** More than five teams across remote and in-person stages.
- **Princess Nourah Hackathon, 2026:** Three teams across remote and in-person stages.
- **RoboRumble, 2026:** Technical mentoring at King Saud University.

- **BuildX, May 2026:** Three-day AI prototyping workshop with Claude Code.
- **Drone 360°, May 2026:** Three-day camp; 470+ registrations and 220+ attendees.
- **Exploring Robotics, September 2024:** Practical robot-building, Arduino, and ROS workshop.

## RECOGNITION

- AgentX 2025: Third place, SABAQ team leader.
- WRO 2025: Saudi first place and World Finals bronze, YAMAMAH technical supervisor.
- University of Jeddah Drones Hackathon 2024: First place in the Hajj & Umrah track, Sidan project.
- Smart Methods Hackathon 2024: Second place.
- Best Engineer 2024 and Social Media Award, Smart Methods.
- Champion of the Week 5, Saudi Digital Academy, 2025.

## SKILLS

Generative AI · Agentic AI · Context Engineering · MCP · Python · TypeScript · React · Next.js · Supabase · OAuth 2.0 · LangGraph · LangChain · n8n · AutoGluon · TensorFlow · YOLO · OpenCV · ROS · Jetson Nano · Arduino · SQL · pandas · Power BI

Languages: Arabic and English.

Updated: 21 October 2026.
